

Andrew J. Klettke, P.E., M. ASCE

GEOTECHNICAL ENGINEER

Mr. Klettke has over eight years of experience on various projects involving civil, structural and geotechnical engineering, all with McMahon & Mann Consulting Engineers, P.C. (MMCE) in Buffalo, New York. He has worked on projects dealing with issues associated with foundation and bridge design and construction.

This experience includes developing and implementing subsurface exploration and soils laboratory testing programs for various projects. He has experience with design considerations for bridge foundations, including spread footings, driven piles, drilled piers, and earthen embankments. He has also been involved with bridge and road construction projects that involved excavation support systems, subgrade preparation, embankment construction, and erosion and sediment control.

Mr. Klettke has served on ASCE Buffalo Section Board of Directors since 2014. He is the current Treasurer having been elected in 2016.

Mr. Klettke graduated from Clarkson University with a Bachelor of Science in Civil Engineering in 2006. He received his Master of Science in Civil Engineering at Tufts University in 2009.
